DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group I, claim(s) 1-2 and 6-9, drawn to a partially light-transmitting plate and partially light reflecting plate;
- Group II, claim(s) 3-5 and 28-31, drawn to a light-transmitting plate;
- Group III, claim(s) 10-15, drawn to an LCD display;
- Group IV, claim(s) 16-19 and 32-37, drawn to a plate of light-transmitting material with Fresnel refractor;
- Group V, claim(s) 21-27 and 38, drawn to an optical device with graded refractive index surface.

2. The inventions listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I, II, IV, V are a subcombination of Group III. Groups I, II, and IV are directed to light-transmitting plates whereas Group V is directed to an optical device.

3. This application also contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- (1) the specifics of the device comprised of a partially light-transmitting plate and partially light reflecting plate;
- (2) the specifics of the device comprised of a light-transmitting plate;
- (3) the specifics of the device comprised of a light-transmitting plate with a Fresnel refractor.

4. Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

- Group I to claim(s) 1-2 and 6-9;
- Group II to claim(s) 3-5 and 28-31;
- Group IV to claim(s) 16-19 and 32-37.

The following claim(s) are generic: Claims 3-5 and 28-31.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Y. Wang whose telephone number is 703-305-7242. The examiner can normally be reached on M-F, 8 am - 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 703-305-3492. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
